Clatsop County, Oregon Death Records 1903 to 1944

Compiled by Norma Hunsinger

Most of the following records date from between 1924 and 1944, though a few are a little older. They were compiled from loose papers stored at the Clatsop County Courthouse. These records may not be a complete record of all who died in the county in those years. If a name you expect to find here is not on this list, check the microfilm copies of the death records, or contact the Oregon State Archives to ask them to check their files. The newspaper index at the Astoria Public Library may provide additional information.

The handwriting in the original records is very difficult to transcribe. As a result, there are bound to be serious errors in transcription. Some names have been duplicated accidentally on this list because there are sometimes two sheets of paper for each person and the names were spelled differently or appeared to be spelled differently. We have attempted to correct some of these mis-spellings.
